BIENNIAL REPORT

Of the Minister of the Interior to the Legislature of 1862.

OFFICE OF THE INTERIOR DEPARTMENT, ? April 20th, 1862. By command of the King, and in conformity with the duty imposed on me by the Constitution, I respectfully submit the following statement of the transactions of the Department under my charge

RECEIPTS AND EXPENDITURES. The receipts during the two years ending March 31st, 1862, amounted to (as shown in Table A. in the appendix to this Report) \$185,315 21.

The expenditures during the same period (as pe Tables B. C. D. and E.) amounted to \$220,597 15. OF THE GOVERNMENT PRESS. Since the meeting of the last Legislature, and in order to carry out to the fullest extent the commands of His Majesty the Kin : which were, the reduction of all unnecessary expenditures in all the Depart-

ments of the Government, but not to such an extent as to impair the efficiency of the public service, I have leased the Government Press, will all the materials belonging to it, together with the house and lot, for the sum of eight hundred dollars per annum to Mr. A. Fornander. I also contracted with him for all the Government printing, for the sum of \$3,800 per annum. The printing for the Government comprises, " all the customary work done for the Department of the Interior, of Finance, of Foreign Relations, of Public Instruction, of the Bureau of Public Improvements, of the Board of Health, of the Custom House, of the Harbor Master, of the Road Supervisors, of the Post Office, of the Supreme and Circuit Courts, of the Police Courts, of the Marshal, Sheriffs and District Justices, also all Royal Proclamations, ordinances and notices 'By Authority' in the Polynesian, and also all Court, legal and executive notices emanating from any of the above offices, ministerial and other official reports and correspondence, decrees of the Supreme Court and reports of the Legislature and its committees when required."

I hope that the Legislature will approve of the action I have taken in his matter. Copies of these con-tracts will be furnished if required. By this arrange-ment you will perceive at a considerable saving will be made in the expenditures for this branch of the public service, as now the only outlay of the Government will be about \$3,000 per annum for all its printing. All work, however, done for the Government beyond what is enumerated above is to be paid for extra at the lowest rates that the work can be

As a Government, we have no political connexion with Mr. Fornander's newspaper further than that the Government printing is done at his office; but from his well known character as a public journalist of undoubted fairness and impartiality, I have every reason to expect that he will ever be ready to open his columns for the correction of misrepresentations and erroneous surmises, either editorially or when communicated by any of the Departments. The expenditures for this Bureau to Nov. 2d, 1861, when the office was leased to Mr. Fornander, will be

found appended hereto, marked Table D. OF NATURALIZATION. During the years 1860 and 1861 one hundred and thirty-seven foreigners have become naturalized subjects of His Majesty, who were natives of the followng countries :

Great Britain and Ireland,..... Cape de Verde Islands,....

OF THE POST OFFICE. With great pleasure I call your attention to the re-port of the Postmaster-General (marked F.) Although the business of the Post Office has been greatly increased during the past few years, yet the labor being systematized allows it to be performed with more ease and dispatch than formerly.

I especially invite your attention to the different points suggested by the Postmaster-General. There s no doubt in my mind that the remissness of unpaid posimasters, the want of some effective measure by which the transmission of letters by private hands might be prevented, and the abuse practised on the privilege granted on consignees letters in the absence of any fixed penalty, and also perhaps that want of co-operation and assistance which ought to be furnished by the masters of coasters to the differen ffices. have contributed for some time past to the irregular-ities in the transmission and delivery of the inter-island mails, which have caused frequent and sometimes very just complaints on the part of the public. These suggestions are recommended to your careful consideration.

OF THE LAND OFFICE. During the years 1860 and 1861, 9,060.34 acres of land have been sold, which realized \$9,535 93, as shown in the following table:

SALES OF RE	AL ESTATE.	
Na. of Patents. Maui	1.008 73	1.058 2

The receipts for Land Commission awards, and for certified copies, &c., amounted to \$613 50, viz : For 39 Land Commission awards and old debts, \$328 00

Allodial awards,.....

The constant sales of land made under the system adopted by the former administration, which was in fact berrowed from the United States, have reduced the extent of the public lands

the United States, have reduced the extent of the parts than a small compass.

This system was no doubt liberal on the part of the Government, but has resulted in the greater portion of the Government lambs having been purchased by speculators, and being now held at speculators' prices. Agents who were appointed to sell land for the Government have in many instances sold pieces of land without any judgment, so that in fact the remainders of the lands are so cut up as to be of little or no value at all.

I am of the opinion that if a fair rent had been asked for the public lands, and that the conditions of the leases had been such that the lands were to be cultivated or improved by the lessees during the terms of their leases, the Government would have faifilled their object more practically, and have done more good than by the plan hitherto adopted. In the United States it was different, as in that country these was an unlimited extent of

waste lands, which was of no value unless cultivated, and which consequently could be sold to settlers at very low rates. Our country must always be an agricultural one; we cannot pretend to be a manufacturing or commercial one to any extent. Our plan for developing the productive resources of the country is a plain one. Our lands are well adapted to the growth of tugar, coffee, tobacco, grapes, rice and cotton, and the price of land varies according to the quality, the purpose for which it is intended, and also its situation. If near a market or to a good port, its value is enhanced.

port, its value is enhanced.

As the whaling fleet has been withdrawn from our waters, we must now depend upon our own internal resources, and I would recommend that inducements be held out to agriculturists, so that our exports may be increased to their fullest extent. I am of the opinion that by adopting a protective duty on our staple products, persons would be induced to enter into the agricultural business who now have no interest to do so. I would also propose that the two Agricultural Societies be merged into the agricultural that they be empowered to offer premiums or bounties. port, its value is enhanced. one, and that they be empowered to offer premiums or bounties to those agriculturists who may raise over a certain quantity of such products as may be specified by law. These sources of our national wealth require our most liberal assistance and for-tering care to their fullest development.

PUBLIC IMPROVEMENTS. Since your last session, the iron pipes for the new water works in Honelulu have been received from Glasgow, laid down from Kapena spring to the city, and distributed through all the It is satisfactory to be able to state that the whole of the work

1	PUBLISH	ED	WEEKLY BY
1	HENRY	M.	WHITNEY.

eccipts from water, leaving only a balance of \$9,535 45 with interest to be paid during the next two years.

Great credit is due to Wm. Webster, Esq., for the careful way in which the estimate and specification of the quantities and sizes of the pipes required were made out, and for his supervision of the carrying out of these works, as well as to Mr. Wood, the Superintendent of Public Works, who carried out the As there are no public works contemplated by the Govern ment during the next two years, there will be no necessity for

a Superintendent, so I have not inserted in the estimate of expenditure, furnished to His Majesty's Minister of Finance, any appropriation for that officer.

Good roads are essential to the development of the resources Good roads are essential to the developement of the resources of the country, for unless we have the means of bringing our produce to a port or market the labor on it is thrown away, or the extra cost of bringing over bad roads is such as to render the agricultural business unprofitable. There are several suggestions in the Report of the Road Supervisor for the island of Oahu appended hereto, (marked G) which I hope will meet your approval. Such changes I think will be beneficial, because they are suggested by past experience; his proposed plan for commuting with parties who own lots in the city of Honoluia, when required to give up a portion of their property to widen streets is, I think, wise and just, and would greatly relieve the Treasury.

CHAS. F. GUILLOU, M. D.,

Late Surgeon United States Navy, late Consular Physician to American seamen and general practitioner.

Office corner Kaahumanu and Merchant streets, and residence at Dr. Wood's Mansion, Hotel street.

Medical and Snrgical advice in English, French, Spanish, and Italian.

Office hours from 11 a. M. to 2 p. M.; at other hours inquire at his residence.

H. STANGENWALD, M. D.,

PHYSICIAN AND SURCEON during the two years ending with the 31st March,

His proposition to tax droves of cattle when driven on the public roads requires also your careful consideration. I agree with him in the propriety of such a tax, but I consider it insufficient for the proper maintenance of the roads. I cannot but a gree with the views expressed by Wm. Webster, Esq., Civil Engineer, in his report on our public roads to His Excellency B. C. Wyllie, in I 858, who then had charge of the Bureau of Public Improvements. He says:

I. W. A IISTIN.

Public Improvements. He says:

'The tax also is not sufficient to make the roads, even if it were religiously applied to that purpose, although at the same time it is abundantly heavy on the poor people. I think that a land tax for the purpose of making the roads would be for the enefit of the country, the present tax being about sufficient to keep them in repair when once properly made."

These views I heartily endorse after mature deliberation, and I therefore respectfully submit these propositions in order that your honorable bodies may put them in some form that will place our roads in a fair and lasting condition.

Dealer in Dry Goods, Silks, &c.

308-ly Fort Street, floroiniu, Onhu, H. I place our roads in a fair and lasting condition.

CHUNG HOON. I would also recommend that the 'aw regulating the proper confinement of prisoners be so altere, that I may be authorized to send the prisoners out to work on the public reads throughout the Kingdom. Proper places for their confinement at night should be provided, when the work is a distance from the pub-

BOARD OF HEALTH. I beg to call your further attention to the Report of the Board of Health, marked I. The results obtained from the law passed by the last Legislature, for the been sing of the sale of opium are very satisfactory. This act has been the means of greatly decreasing the illicit Ins act has been the means of greatly decreasing the illicit sale, and also the use, of this pernicit s drug.

I respectfully refer you to the Report of the Sheriff of Onhu, marked H, in relation to the practical results of the operation of the Act to mitigate the evils arising from prestitution. Although knowing that the system has been successfully practiced in the civilized countries of Europe, yet I had doubts, at the time of its passage, whether the law could be established and enforced with any success in section of the process of the countries of the process of the pr with any success in such a mixed community as this, without being subjected to some great abuse. I have watched the progress of the system instituted with great care, and I can say that, from the frequent reports of the Sheriff, and from my own observation, it has resulted in lessening, in this city, those fearful diseases which are always to be met with in all scaport towns in the world, and I has always to be met with in all scaport towns in the world, and I has always to be met with in all scaport towns in the world, and I has always to be met with in all scaport.

W. FISCHER.

owns in the world, and 't has also been the means of dimi ing the spread of these diseases through the remote parts of this Kingdom.

The working of this Act ought to be allowed a further trial, and if the title of the Act is considered obnoxious, I would reccommend it to be changed, but not to have any of its provisions altered.

THE QUEEN'S HOSPITAL.

As your Honorable Bodies will be called upon to contribute towards the support of the Queen's Hospital, I enclose the report of the Secretary of that Institution, J. W. Austin, Esq., (marked K.) It is truly gratifying to notice the large amount of sickness and disease which have been cured and alleviated by the above beaevolent institution Prostrated by sickness, I was unable to attend the delibera-tions of the House of Nobles during its last session, but by the aid of Divine Providence and the skill of my medical advisers, I so far recovered toward the end of the session, as to undertake a voyage to foreign countries, for the purpose of a com-plete recovery; and I have now to thank the Honorable Mem-bers of the Houses of Legislature for the liberal provision made by them towards defraying the expenses of that voyage.

GOD PRESERVE THE KING. L. KAMEHAMEHA.
